

“How has learning English helped you in your life?”

-  My child and I are learning together to read and the more confidence I have the more he has in learning along with me.
-  Learning English helps me communicate better with my children's school. Because English is the official language around here it is so important to learn it. English is a bridge that will connect me to other cultures.
-  “English helps me feel better in public. My son speaks very well. I practice at home with him. Also, when I go the high school I can understand the teacher better.”
-  “English helps me to talk to my children's teachers and when I'm in the doctor's office, I understand better. Sometimes I don't need translation.”
-  “Learning English helps me get involved with my children's school and in understanding their progress.”
-  “Learning English helps when going to the doctor and when interacting with neighbors, with children's teachers, when going to the stores. Knowing English changes my life!”
-  “I'm comfortable at PTA meetings. English has changed my life.”
